

Easton Royal Playground

October 2020

Your response by the end of October
would really be appreciated !

PRESENT SITUATION

The Easton Royal playground was designed and constructed by members of the community in 1991 and was inaugurated in 1992. Since then regular maintenance has been carried out by members of the Parish Council in conjunction with the ROSPA inspections. ROSPA have, however, recently highlighted that the play structures will need replacing in the not too distant future.

Our playground has been *extremely* successful for its unique design and longevity and is a testament to the vision, generosity and skills that Easton Royal is renowned for. It has been and is still appreciated and loved by generations of Easton Royal residents, the local school children and visitors. Its unique self-build, natural look, accessibility and “fun value” have been perfect for our village. For any future project, we would hope to emulate these characteristics with the added ambition of providing features for all children, including those with disabilities, teenagers and adults.

PROJECT

Following a discussion with the Parish Council, we have initiated this project by setting up a small “Task Force” (TF) which we believe represents a cross-section of the Easton Royal residents and who are willing to give their time and energy to reach a realistic (but maybe also a little ambitious!) objective. This project is both exciting and...challenging. The hope is that many of you will step forward to enable us to retain this village asset. The proposed site for the future playground is between the present play area and the orchard.

For our project to be successful we need YOU !

We invite all adults and children to fill in their appropriate questionnaire to start us on our journey. Paper copies can be provided on request - please call 01672 810194.

The TF would work on obtaining financial assistance through funds and grants, but also through organising fun, inclusive fundraising events and supporting individual projects to help reach our goal.

We will of course invite you to discuss our proposed plan, financial objective and plans of action but, at this early stage, we mainly need to know that you are behind us!

Would you please share your views with us and, above all, make yourself known should you wish to participate in any way. Thank you!

The TF (Caroline ANDERSON, Ben COOPER, Emma DICKIE, Peta PUYO & Phil WOODHEAD)
